

## Announcing New Strategic Distributor Partnership With Proton Medical Care Company

We are pleased to announce that we have entered into a strategic agreement with Proton Medical Care Company to distribute SkinMTX's innovative products and proven treatment range throughout the Kuwaiti market, starting from March 2022.

**SkinMTX** is a dermatological-grade skincare brand formulated for proven, sustainable results. With expertise in pre and post skincare regimens as well as in-clinic treatments, SkinMTX has been driving innovations in aesthetic skincare with unrivalled potency, delivering optimal efficacy with superior safety that is tailored to the needs of every unique skin type.

SkinMTX received its latest recognition by clinching the 2021 Beauty Insider Award – Best in Anti-Aging title. The winning product, TeloZyme™ Youth Activator, is a revolutionary multifaceted serum that is formulated based on the Nobel Prize-winning discovery of telomeres and how the deterioration of this part of the DNA structure accelerates cell aging. This ground-breaking innovation is specially formulated to work at the key cell matrix of skin's youthfulness by targeting the health of telomeres.

**Proton** Medical Care Company is both a healthcare services company, as well as a supplier of high quality medical, beauty and health products. With 20 years' experience in the market, they have established themselves among healthcare providers, pharmacies, clinics, government offices, laboratories, and retail customers as a provider of more than just products and services, but also as a company that focuses on offering solutions to their customers.

With the industry expertise and emphasis on efficacy, quality, and safety from both organizations, this new partnership foresees a mutually beneficial growth for both parties.

And we at SkinMTX are excited with this new collaboration! We are confident that our partnership with Proton Medical Care Company will provide our customers with local presence, and outstanding support and dedication, without compromising on quality.

So, to all beauty enthusiasts, keep an eye out for SkinMTX products, coming your way soon!
