SkinMTX Awarded BEST DERMATOLOGICAL-GRADE SKINCARE LAB

We are pleased to announce that our brand was named the Best Dermatological-Grade Skincare Lab in the Health, Beauty & Wellness Award 2022 by LUXlife magazine.

The Health, Beauty & Wellness Awards was launched to determine and recognize the best companies and their world-leading products, services and expertise as well as honoring the companies and individuals that are going out of their way to help acknowledge the treatments and services that have eased us through the pandemic. The aim of the award is to celebrate those who are championing the trends in Health, Beauty and Wellness.

As a pioneer in aesthetic skincare innovation, SkinMTX is proud to have received acceptance around the globe as a testament to our formulations that offers the highest level of effectiveness and safety. The result is unrivalled potency that matches up to the demanding standards of aesthetic and dermatological care.

SkinMTX uses top-of-the-range ingredients in each product with established effectiveness that delivers long-lasting efficacy, ensuring the benefits reach the depth of the skin. Among the scientific breakthrough formulations are Nobel Prize inspired Telozyme™ Complex, a cellular intervention that protects the end caps of DNA chromosomes to prolong and reactivate skin youthfulness, Fullerene that significantly improves skin brightness and suppresses melanin formation with 125x higher efficacy compared to vitamin C, triple encapsulated Intense RejuvorA™ that improves retinol stability and efficacy - reduces free radical damage, preventing wrinkle formations while supporting collagen and skin renewal as well as Alpha Arbutin, proven to have a superior lightening effect without the toxicity and irritations associated with hydroquinone.

We at SkinMTX are delighted with this recognition and will continue to serve our customers with perfection through the finest, purest and most effective ingredients for your skin.
